

Judith Rodin, Ph.D
President, The Rockefeller Foundation, 2005 – 2017
President Emerita, University of Pennsylvania

Judith Rodin is a pioneer, innovator, change-maker and global thought-leader. For over two decades Rodin led and transformed two global institutions: The Rockefeller Foundation and the University of Pennsylvania. A ground-breaking executive throughout her career, Dr. Rodin was the first woman named to lead an Ivy League Institution and was the first woman to serve as The Rockefeller Foundation's president. A research psychologist by training, she was one of the pioneers of the behavioral medicine and health psychology movements.

Dr. Rodin's leadership ushered The Rockefeller Foundation into a new era of strategic philanthropy that emphasized partnerships with business, government, and the philanthropic community to address and solve for the complex challenges of the 21st century. As president, Rodin recognized that the Foundation's funding alone was unable to spur the kind of systemic change necessary to solve the key challenges facing the world. Responding to that dynamic, Rodin led the Foundation in a sweeping transformation that modernized all operational and programmatic aspects of The Rockefeller Foundation. Rodin looked for new spaces where there was momentum for innovation, identified places where Rockefeller could use its influence to leverage additional financing and engage private and public sector partners to ensure impact continues after Rockefeller grantmaking ends. Building on the Foundation's history of creating and developing the field of public health and the Green Revolution, under this new form of strategic philanthropy, Rodin championed two whole new fields that are now pervasive: resilience and impact investing. Under her presidency, the Foundation invested more than half a billion dollars and leveraged billions more in resilience programs including establishing 100 Resilient Cities, the creation and growth of urban resilience-building strategies and investments around the globe. As a result of her vision, in 2015 *Fast Company* named The Rockefeller Foundation one of the top ten innovative non-profits in the world.

When Dr. Rodin was named president of the University of Pennsylvania in 1994, she was not only the first woman named to lead an Ivy League institution, but was the first Penn graduate to serve as its president. She came to Penn from twenty two years at Yale University where she had served as a faculty member, Dean of the Graduate School and Provost. At Penn, Dr. Rodin presided over an unprecedented decade of growth and progress that transformed the institution, its campus, and the community, taking the university from sixteenth to fourth in U.S. News and World Report national rankings. Under her leadership, Penn doubled its research funding, tripled both its annual fundraising and the size of its endowment, and attracted record numbers of undergraduate applicants, including its most selective classes in history. The University also engineered a comprehensive, internationally acclaimed neighborhood revitalization program in West Philadelphia.

Dr. Rodin has served as a member of the board for several leading corporations including Aetna, AMR, EDS, Citigroup, Laureate Education, Inc. and Comcast NBCUniversal. She has been named to Forbes' 100 Most Powerful Women list, Crains Most Powerful Women in New York list, as well as the National Association of Corporate Directors' (NACD's) 2011 Directorship 100, in recognition of her work promoting the highest standards of corporate governance. In 2009 US News and World Report honored her in their list of America's Best Leaders.

A widely recognized international leader in academia, science, and development issues, Dr. Rodin is a sought-after speaker for influential global forums, including the World Economic Forum, the Council on Foreign Relations, Habitat III, the Global Forum at the Vatican, and the United Nations General Assembly. In 2014, she was a co-chair of the World Economic Forum Annual Meeting in Davos. Dr. Rodin also served as a member of the African Development Bank's High Level Panel and a founding board member of the Alliance for a Green Revolution in Africa, US Artists and ArtPlace. In November 2012, New York Governor Andrew Cuomo named Dr. Rodin to co-chair the NYS 2100 Commission on rebuilding to create long-term resilience for the State of New York following Superstorm Sandy. Dr. Rodin has also served on many other non-profit boards including Carnegie Hall, the World Trade Center Memorial Foundation, and the Global Impact Investing Network.

A pioneer of the behavioral medicine and health psychology movements, Dr. Rodin was trained as a research psychologist. After completing her Ph.D. at Columbia University in 1970, she joined the faculty of New York University as an assistant professor of psychology. She moved to Yale in 1972. She was promoted to associate professor in 1975, named a full professor of psychology in 1979, and added the title of professor of medicine and psychiatry, under the School of Medicine, in 1985. Prior to her appointment as Yale's provost in 1992, she served two years as chair of the department of psychology and one year as dean of the Graduate School of Arts and Sciences. At Yale, Dr. Rodin earned an international reputation as both a pioneer of the women's health movement and as one of the early psychologists to master both the biological and psychological factors that lead to obesity. From 1983 to 1993, she chaired an international research network studying health-promoting and health-damaging behavior for the John D. and Catherine T. MacArthur Foundation. Dr. Rodin's research also contributed to the understanding of aging by demonstrating that elderly people who are given control over their environment are more active, healthier, and live longer than those who are consigned to helplessness. In recognition of her scientific achievements, Dr. Rodin served on President Clinton's Committee of Advisors on Science and Technology and is a member of several leading academic societies, including the American Academy of Arts and Sciences, the American Philosophical Society, and the Institute of Medicine of the National Academy of Sciences.

Rodin has authored of more than 250 academic articles and chapters, and has written or co-written 15 books, including her two most recent, *The Power of Impact Investing: Putting Markets to Work for Profit and Global Good* (Wharton Digital Press, 2014) and *The Resilience Dividend: Being Strong in a World Where Things Go Wrong* (Public Affairs 2014). Dr. Rodin has also been featured in numerous publications and books over her career, including Tom Brokaw's volume, *Boom! Voices of the Sixties: Personal Reflections on the '60s and Today* (Random House, 2007). Dr. Rodin has been the recipient of 19 honorary doctorate degrees and numerous additional honors. In 2004, she received both the prestigious Philadelphia Award and the William Penn Award for her "commitment to elevating the economy of West Philadelphia and the quality of life for its residents; for her leadership roles in galvanizing Philadelphia's higher education institutions in order to keep the region's brightest graduates there; and for promoting the region as a high-tech business location." In 2006, she was awarded the Pennsylvania Society's Gold Medal for Distinguished Achievement, which is bestowed upon "a prominent person in recognition of leadership, citizenship and contributions to the arts, science, education and industry," making her the first person ever to receive all three of these major Pennsylvania honors.

EDUCATION

University of Pennsylvania, Philadelphia, A.B., 1966, Psychology
Columbia University, New York, Ph.D. 1971, Psychology
University of California, Irvine, 1971 (Summer), NSF Postdoctoral Fellow, Neurobiology for Social Scientists

PROFESSIONAL CAREER

2005- 2017 President, The Rockefeller Foundation
2004- present President Emerita, University of Pennsylvania
1994-2004 President, University of Pennsylvania
2000-2007 Fox Leadership Professor, University of Pennsylvania
1994-2007 Professor of Psychology, School of Arts and Sciences, University of Pennsylvania
1994-2007 Professor of Medicine and Psychiatry, School of Medicine, University of Pennsylvania
1992-1994 Provost, Yale University
1991-1992 Dean of the Graduate School of Arts and Sciences, Yale University
1989-1991 Chair, Department of Psychology, Yale University
1985-1994 Professor of Medicine and Psychiatry, Yale University
1984-1994 Philip R. Allen Professor of Psychology, Yale University
1983-1993 Chair, the John D. and Catherine T. MacArthur Foundation Research Network on Determinants and Consequences of Health-Promoting and Health-Damaging Behavior
1982-1989 Director, Health Psychology Training Program, Yale University
1979-1983 Professor of Psychology, Yale University
1982-1989 Director of Graduate Studies, Department of Psychology, Yale University
1975-1979 Associate Professor of Psychology, Yale University
1972-1975 Assistant Professor of Psychology, Yale University
1970-1972 Assistant Professor of Psychology, New York University

HONORARY DEGREES

2016 John Hopkins University (Humane Letters)
2012 Northeastern University (Humane Letters)

2009	Thomas Jefferson University (Science)
2008	University of Miami (Humane Letters)
2007	Dartmouth (Science)
2007	University of Maryland, Baltimore County (Humane Letters)
2007	University of the Sciences in Philadelphia (Sciences)
2006	University of Pittsburgh (Humane Letters)
2006	Yeshiva University (Humane Letters)
2006	Franklin & Marshall College (Humane Letters)
2004	University of Pennsylvania (Laws)
2004	Brown University (Laws)
